Water Filters Installs

Attachments: [Installed Not Connected Filter Systems.xlsx](#) (11.7 KB)

---

Kerry,

We intend to communicate to our school that have filters installed but not connected due to low water pressure issues. However given the recent information I shared regarding Frantz ES I need you to review my records so that we are reporting the correct information. I need you to review my count of installed filters and the number of installed filters that are NOT connected (columns K and L). I've attached the spreadsheet I've used to track this data. Please review ASAP.
